

THE ENTRY // LIFE CABARET

The Entry is the name of the new music project by Andrea Pestoni (ex *Pureape*).

After 2 studio albums and more than hundred concerts all around Europe, Andrea Pesotni - songwriter, singer and producer of the Zurich based project *Pureape* – decided to continue his musical journey under a new artistic identity. *The Entry* is a kind of nightlife creature that takes shape in the very late hours of the day. Imagine an introvert cabaret artist that express deep feelings and violent passions through banal pop songs and that perform them on an imaginary scene for an imaginary audience.

The debut album *Life Cabaret* is the result of Pestoni's love for motorik beats, distorted guitars and pop harmonies. 11 new songs inspired by real lies and imaginary truths, where quiet moments of melancholy meets artificial punk explosions. 11 songs between rock, new wave and punk mixed with androgynous vocals that will guide you through a journey into the imaginary world of *The Entry*.
